

MIGRAINE RELIEF

Starts at \$160

A combination of fluids, magnesium, and B6 can help relieve even the toughest of migraines.

GLUTATHIONE

Glutathione is a powerful antioxidant and detoxifying compound. It is not well absorbed orally so intravenous delivery is ideal. We can become deficient when we are exposed to high levels of stress or toxicity or when recovering from illness. It is given as an IV push of mini-drop by itself or following any of our vitamin infusions as an add-on.

400mg IM "detox shot" – \$20

600mg IV push (add-on only) – \$30

1000mg IV mini-drip – \$100 / add-on \$50

2000mg IV mini-drip – \$125 / add-on \$75

3000mg IV mini-drip – \$150 / add-on \$100

IV LOUNGE BUSINESS HOURS

by appointment only

Monday	9:00am–3:30pm
Tuesday	9:00am–3:30pm
Wednesday	9:00am–3:30pm
Thursday	9:00am–3:30pm
Friday	9:00am–1:00pm
Saturday	Every 3 rd of the Month
Sunday	Closed

IV NUTRIENT THERAPY

- **Treat nutrient deficiencies**
- **Increase energy levels**
- **Promote cardiovascular health**
- **Strengthen immune response**

ADD-ON BOOSTS

Vitamin C Boost – \$10

NitrOx Boost – \$25

Power Boost – \$35

Multi-Mineral Boost – \$15

Metabolic "Fat-Burning" Boost (MIC) – \$40

Relaxation Boost – \$25

Immune Boost – \$25

Migraine Boost – \$20

Myers B Boost – \$50

Amino Boost – \$35

BENEFITS OF IV THERAPY

IV Nutrient Therapy is an effective way to introduce nutrients directly into the bloodstream to achieve and maintain optimal health. Since the digestive system is bypassed, it allows for greater absorption into cells and tissues. It is estimated that only **20-40%** of vitamins and minerals taken orally get absorbed.

You will feel the effects immediately, and distribution to the deficient cells is more rapid and complete. It is especially helpful for those who have impaired digestion or intestinal absorption.

VITAMIN C INFUSION

25 grams — \$170 75 grams — \$270
50 grams — \$220 100 grams — \$300

Vitamin C is effective at speeding up the body's healing processes. It lessens pain after injuries, improves energy levels, and enhances resiliency to infections like colds/flu and other bacterial/viral infections. It also benefits those undergoing cancer treatments as an adjunctive therapy. Before receiving an infusion greater than 25 grams, we must document a normal G6PD enzyme activity with a simple blood test.

IMMUNITY IV

Starts at \$235

The immunity IV provides 15g of Vitamin C and a healthy dose of Zinc, followed by 2g of Glutathione. This IV is great for immune function, illness, an energy boost, and detoxification.

MYERS COCKTAIL

Starts at \$160

The Myers Cocktail consists of B Vitamins, Vitamin C, Magnesium, and Calcium. It is named after the late John Myers, a pioneer in nutritional medicine and cellular biochemistry. It is our most popular infusion! It is best for first time infusions, an immune boost and for a punch of energy.

MYERS PUSH

Starts at \$150

This 5-minute IV is packed with vitamins and minerals to provide you with an immune boost and quick energy when you're in a time crunch. We suggest popping by and getting one of these before travel or an event or for a quick energy boost.

PRE/POST-OP MYERS

Starts at \$170

Come in before or after your surgical procedure for optimal healing with Vitamin C and Arginine.

RECOVERY IV

Starts at \$175

AKA The Hangover Helper. This IV provides electrolyte infused fluids with added B Vitamins to help aid in recovery. Pair this with a nausea nixer (Zofran) boost or a headache helper (Toradol) boost for a hangover or an amino acid boost for muscle recovery.

SKIN GLOW IV

Starts at \$225

Promote circulation to the skin with this infusion of skin-brightening nutrients! You will receive 15g of Vitamin C and a glutathione push while also relaxing during a LightWave or Joov Light Treatment.

NAD+ INFUSIONS

Starts at \$300 per single treatment

Save 10% on package of 4 • Save 20% on package of 8

NAD (Nicotinamide Adenine Dinucleotide) is a B3 derivative that our body naturally makes. NAD is important to help sustain neurological, muscular, cardiometabolic, and mental health. Unfortunately, NAD production declines as we age. This IV can help boost metabolism, decrease pain and inflammation, diminish fatigue and brain fog, promote longevity, improve mood, and can help facilitate weaning off antidepressants and anxiety medications. It is given over 2-3 hours and preceded by a Myers Vitamin push to enhance effectiveness.

A series of 4-8 infusions is recommended for optimal results.

FAT BURNING IV

\$175

With a combination of B Vitamins and target specific amino acids, this IV is great for boosting metabolism, increasing utilization of fat fuel, increasing ketosis, improving insulin sensitivity, reducing fatty liver, and improving gallbladder function.

Ask us about a customized IV fit to your needs.
